Dear Harold, Ted sent me
copies of your letters to him
about Mark. You know I have
been the only critic, outside
yourself, attacking Lane
publicly since Jan. 1975.
Would you object if I read
few of your opinions on my
show? If you say "no", I will
understand. It is just that
young or old, those interest
in assassinations should
comprehend the struggle within
the groups. I know why we can't
get wire services, lectures, etc.
Hope you are feeling OK
